

Mike Barsky

Director, General Manager of Microelectronics Products and Services

Northrop Grumman Space Systems

Mike Barsky is the director and general manager of Microelectronics Products and Services Operating Unit, which provides external access to the Northrop Grumman Corporation microelectronics foundry at Space Park. Barsky is responsible for the commercial storefront and business deals with clients in the commercial and aerospace industries.

With 27 years at Northrop Grumman, Barsky has held leadership positions across program and functional management. Prior to his current role, Barsky was the manager of the semiconductor wafer fabrication facility at Space Park. He has also held roles in the technical development of semiconductor devices as well as program-level roles for electronic subsystems.

Barsky holds a bachelor's degree in chemistry from the University of California, Irvine, and a doctoral degree in chemistry from the University of California, Los Angeles.

Northrop Grumman solves the toughest problems in space, aeronautics, defense and cyberspace to meet the ever-evolving needs of our customers worldwide. Our 90,000 employees define possible every day using science, technology and engineering to create and deliver advanced systems, products and services.
