

October 13, 2022

TO: Northrop Grumman Suppliers

FROM: Northrop Grumman Systems Corporation

SUBJECT: Cyber Security Questions added to eRFQs

To improve efficiency and affordability into our operations, Northrop Grumman has updated our electronic Request for Quotation (eRFQ) form, used by many of our NG business areas, to include cyber security questions. **This update will begin October 13, 2022.**

The enhanced form will now prepopulate the eRFQ form on your behalf based on your company's previous Representation of Cyber Security compliance. You must continue to confirm that the information is still accurate for the information systems to be used to perform the scope of work referenced in each eRFQ.

- If you check "YES" on the RFQ, the prepopulated answers will remain.
- If you check "NO" on the RFQ, the fields may be edited, and you will be able to update your current compliance information for submittal to the NG Buyer/SCA.

If the information is unavailable, the cyber security questions will be blank and must be populated on the eRFQ prior to submittal to the NG Buyer/SCA.

We look forward to working with your organization as we transition to this new process.

Note: This is only applicable to eRFQ Forms used by some of our organizations. Please contact your Buyer/SCA if you have any questions or comments.

Thank you for your continued support.
