

September 25<sup>th</sup>, 2020

**TO: Northrop Grumman OASIS Supplier Portal Users**  
**FROM: Northrop Grumman Systems Corporation**

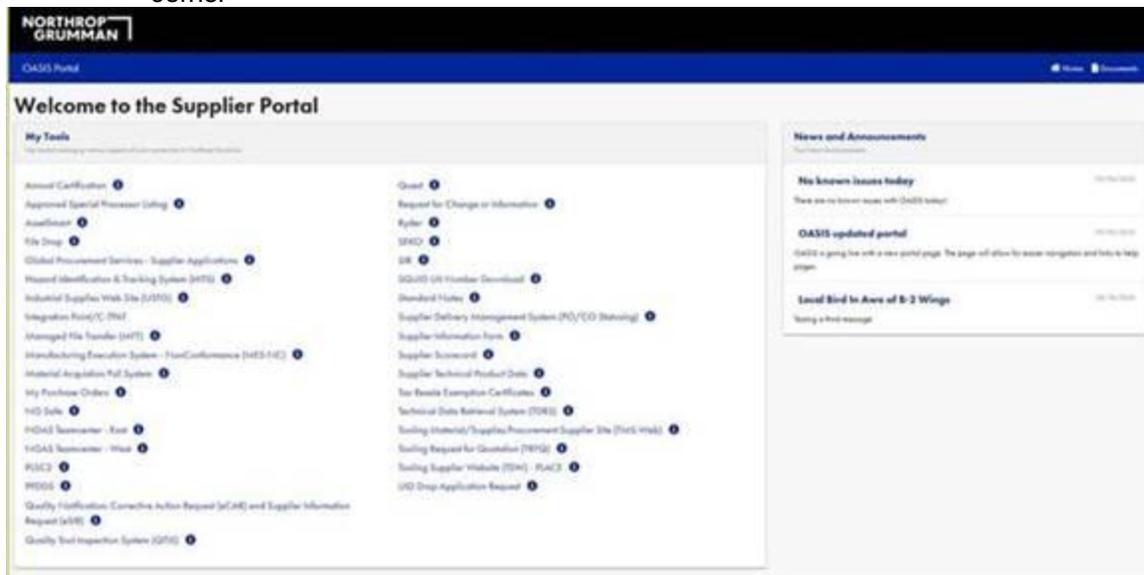

**SUBJECT: OASIS Supplier Portal Changes Now Live**

The [Northrop Grumman OASIS Supplier Tools page](#) is being updated with a new login process to access our Tools and Applications. The change will not only modernize the look and feel of the OASIS page, but it will also enhance the login experience. The roll out of our new OASIS Supplier Portal takes place today on **Friday, September 25<sup>th</sup>**.

New Login instructions

The first change you'll notice is the way you log in. Start by:

- Navigating to the OASIS Tools Page  
<http://www2.northropgrumman.com/suppliers/Pages/Tools.aspx>
- In the top right corner, there is a new button called: "OASIS Login"
  - Click that button and you will see the familiar login prompt
- After logging in, you will see the new OASIS Portal (see image below)
  - From here, you can click and access any application/tool you're provisioned to directly
    - **You will not need to re-login once authenticated into the new portal**
  - For access to the technical documents, such as specs, click "Documents" in the top right corner

Thank you for your continued support,  
Northrop Grumman External Onboarding Team
